

Start Composting!

Proven 3-step process to help you compost food scraps at your work

1. Schedule a Planning Meeting

Estimate your food scrap volumes and find out how much you can reduce your trash after a free consultation with an OCRRA Recycling Specialist.

Schedule at (315) 453-2866 or info@ocrra.org

2. Contact Your Waste Hauler

Ask your trash / recycling hauler to recommend a **cost-effective organics transport solution** to OCRRA's Amboy Compost Facility. Self-hauling your organics is also an option!

3. Arrange for Employee Training

OCRRA provides **free on-site training and educational materials**.

A Recycling Specialist will meet with your team to maximize your organics recovery and supply informative posters and decals.

**Turn your business's food scraps
into a valuable soil amendment!**
