Section 1 Request for Bids

1.1 *THE AGENCY*

The Onondaga County Resource Recovery Agency (the "Agency" or "OCRRA") is a New York public benefit corporation created by Public Authorities Law, Title 13B, for the public purpose of assisting in the planning, development, construction, operation and maintenance of solid waste facilities. OCRRA is empowered to receive, transport, process, dispose of, sell, store, convey, recycle and deal with, in any lawful way, solid waste. OCRRA is also empowered to contract with municipalities, public corporations, or persons for solid waste services.

1.2 *THE OCRRA SERVICE TERRITORY*

OCRRA's service territory, Onondaga County, is located in the center of New York State and encompasses 810 square miles of land. Approximately 460,000 people reside in OCRRA's 33 member municipalities. The largest single municipality is the City of Syracuse with a population of approximately 145,000.

1.3 *OCRRA FACILITIES*

The Rock Cut Road Transfer Station located at 5808 Rock Cut Road, Jamesville caters to large haulers and contractor/small business users with C&D and mixed MSW/C&D loads. Waste is separated by mechanical and manual operations into two waste streams: "burnable material" that can be processed at the Onondaga County Waste-to-Energy Facility, and "bypass material" that must be diverted to a landfill

The Ley Creek Transfer Station, located in Liverpool, New York at 5158 Ley Creek Drive in the Town of Salina was built as a shredding plant in 1972 and converted to a transfer station in 1983. It was a two-level building with a 4,900 square foot dumping floor at the upper level. The repair/maintenance area was accessible through three 18-feet high by 28-feet wide overhead doors. Mechanical work on Agency vehicles was performed at this site. Although large quantities of waste are no longer delivered to this site it may be used as an emergency location for waste if the WTE plant is off-line, it can be operated at up to 800 TPD without any major operational problems, for contingency purposes. This facility is currently under reconstruction.

The Onondaga County Resource Recovery Agency (OCRRA) operates two yard waste compost sites. The Jamesville compost site, located at 4370 Route 91 in Jamesville, services the east, south, and central portion of Onondaga County, while the Amboy compost site, located at 6296 Airport Road in Camillus, services the north and western portions of Onondaga County. Each of these sites are authorized by the NYSDEC to accept both food and yard wastes for processing into compost or mulch.

1.4 *RFB PURPOSE AND SPECIFICATIONS*
